Busy specialty hospital now with 2 locations that includes surgery, internal medicine, neurology and radiology, oncology departments near Orlando, Florida has a full time position available for a technician in multiple departments. CVT is preferred but will consider experienced technicians as well. Must be organized, detail oriented, work well with others and have a good work ethic. Should be proficient with all technical skills that include IV catheter placement, blood collection, fluid therapy, drug calculations, anesthetic inductions, intubations, monitoring and recovery from anesthesia, as well as monitoring and treating hospitalized patients. This is an opportunity to apply and develop your technical skills on an advanced level. We offer health, dental and vision insurance, paid holidays, provide scrubs, continuing education, discounted veterinary services/supplies and 401K profit sharing plan. Salary based on experience. We are an equal opportunity employer and a drug free workplace. Please email or fax resume attention Michelle Wyatt.
