

Humane Society Naples is Southwest Florida's premier no-kill shelter. We have several positions open for experienced veterinary technicians. We operate a full-service small animal practice that is open to the public and an intake clinic that serves our shelter residents. Prospective candidates must be interested in both clinic and shelter medicine and must have at least 2 years' experience as a veterinary technician in either a clinic or shelter setting (or ideally, both). HSN has three locations and is on the verge of some really exciting growth, so it's a great time to consider joining the team.

The right candidates must be able to:

- Skillfully prioritize many tasks at once, while keeping a positive attitude and sense of humor
- Take accurate histories
- Perform venipuncture
- Restrain animals safely in a low-stress manner
- Lift 40lbs
- Be available to work weekends

A full job description will be provided during the interview. We focus on a positive, low-stress experience for our staff, clients, and patients. Our clinic practice is paperless using Avimark practice management software and our shelter clinic uses Petpoint Health (experience with these systems is a plus but not a requirement).

Generous benefits package. Salary depends on experience. Small relocation stipend may be provided for the right candidate.

Job Type: Full-time

Required Experience:

- Veterinary Technician: 2 years

Required Education:

- High school or equivalent
