

Santa Cruz Animal Clinic

We are seeking an experienced Veterinary Technician to add to our growing and skilled team. SCAC is a 3 doctor small animal veterinary hospital that provides full medical and surgical care. All new employees will be given a written test on some items pertaining to areas we require you to be proficient in before we will hire you and we offer competitive salary and benefits for full time employees. Some of the duties will include the following:

- Preparation of animals for anesthesia and surgery, including placement of IV catheters and monitoring anesthesia.
- Properly restrain animals for examination and administration of treatments
- Perform venipuncture (taking blood samples) from dogs and cats.
- Assist the veterinarian in the exam room by drawing up vaccines and medication.
- Run a variety of lab tests and taking digital x-rays
- Assist in the routine daily cleaning / restocking of the clinic
- Have a base understanding of the Cornerstone computer system.
- Experience with Abaxis Lab equipment is a plus.
