

Title: *University of Florida Veterinary Hospitals Technician and Internship Opportunities*

Description: *Looking for an exciting and challenging career or internship in veterinary medicine? The University of Florida Small Animal Hospital might be just what you are looking for!*

Sprawling over 100,000 square feet, the Small Animal Hospital is AAHA accredited and the Emergency & Critical Care service is VECCS Level I certified. Along with ECC, we offer 14 other specialty services to almost 43,000 patients seen yearly and are seeking technicians who have a strong interest and passion for a particular specialty in veterinary medicine. The Small Animal Hospital is a proud advocate of those wanting to continue to grow personally and professionally in the veterinary field and even those considering a technician specialty. Technicians should be motivated individuals who possess the drive to succeed in a busy hospital and have an interest in working in an educational environment.

Paid internship opportunities are also available in three tracks: Emergency & Critical Care, Anesthesia & Pain Management, and a Rotating track. Applications are due February 28th, 2019.

Overall the Small Animal Hospital offers medical and surgical care for dogs, cats, birds, and exotic pets through a spectrum of cutting edge technologies. Some highlights for various services include telemetry monitoring systems, in-house blood donation services, hemodialysis services, mechanical ventilation systems, state-of-the art areas including a specialized isolation area and a catheterization lab, MRI, CT, and digital radiology suites, and the capability to offer various rehabilitative modalities along with radiation therapy utilizing our Linear Accelerator.

Requirements: *Varies depending on position*

Salary: *Varies depending on position*
