# V E T E R I N A R Y SPECIALTY CARE

---

— CHARLESTON —

Our **privately-owned** specialty/ER practices have both owners **ON SITE!** One, a boarded surgeon and the other a boarded internist.

We believe in a work-life balance. We live in one of the most amazing places in the US. You get to work and live where many vacation. We have it all.....sun, ocean, beach, food galore and outdoor activities all year long!

We want to pay you what you are worth, so we offer premium hourly pay along with overnight shift differentials of \$2 per hour if working for the ER/Critical Care department.

Want to know what a day in the life of an Emergency or Specialty technician here looks like? You will be busy, no doubt about that, but you will be valued, appreciated, you will be rewarded, and you will be able to use your skills. We want you to love what you do, and we are willing to do what we need to ensure that you do! Our doctors respect, value and highly utilize their technicians and client support specialists.

We do our best to make schedules that allow you to have a life outside of work and outside period because Charleston has amazing weather all year long. We know that you love animals but we know you also love private time, family time, working out time, craft time, BEACH time so we want to help you achieve that work-life balance!!!

We want to ensure your brain continues to grow so we have an excellent training program and even better we provide in house CE where not only can you earn RACE approved hours for your license but can continue to grow as a veterinary professional.

Our staff is a team of friends, colleagues, and animal lovers with the common goal of saving the lives of pets in need and caring for their pet parents who are worried!

Our state-of-the-art facilities offer 24-hour emergency departments who work hand in hand with our board-certified specialists. If working in a specialty field is the thing that you are passionate about, we have specialists in the fields of surgery, neurology/neurosurgery, oncology, cardiology, critical care, and internal medicine. Of course, we have the diagnostic tools that every veterinary technician loves like a hyperbaric chamber, MRI, CT, Fluoroscopy and much more.

Excellent client service is a core value at Veterinary Specialty Care and so taking care of our clients is as important as taking care of our patients. That includes our local veterinarians who trust us each day with their patients. Strong communication skills and are a must in every position at VSC.

We are very present in the communities we serve. We know that without them we could not be doing what we love. We attend local pet events and school functions regularly. We host an annual CE event for about 200 local veterinarians, technical staff, and practice managers every year along with lunch and learns and community continuing education events all year long for local veterinary staff and even pet owners. Our owners and staff are supporting our local shelters and rescues with donations and medical services. Our team is a family and though our practices are large and our medicine state of the art, we provide a small-town feel in remembering and giving back to the communities we live in.

Our practice was featured on National Geographic's Animal ER Live and we are so proud of this.

Responsibilities for a veterinary technician position include but are not limited to: a working knowledge of basic veterinary medicine, anesthetic induction, and monitoring, high-quality nursing care for patients, phlebotomy, IV catheter placement, radiology, ability to multi-task, & excellent client communication.

Our benefit package includes, 80 hours of PTO and 401k with a match after 90 days, holiday pay, shift premium (ER only), continuing education allowance as well as in-house FREE CE put on by our specialists, increased CE allowance for licensed technicians, health insurance with a monthly employer-paid allowance, dental, vision, gym memberships, life insurance, STD/LTD disability, accident policies, and uniform allowances\*. (\*Some benefits are EE paid)

If you are a night owl or a day lover and thrive on the wonderfully rewarding chaos of emergency/specialty medicine, can play well with others, avoid drama, are energetic, enthusiastic, and eager to learn, then stop reading and send us your resume and a list of professional references that most certainly will give you a glowing review.

We offer a \$500\* sign-on bonus and up to \$500\* moving expenses. (\* conditions apply)

If you want to see what we all look like and learn as much as you can about our hospital, then check out our web site @ [www.veterinaryspecialtycare.com](http://www.veterinaryspecialtycare.com)

How do you send us your resume?

If email is more your thing then email our Hospital Administrator @ [salbanese@veterinaryspecialtycare.com](mailto:salbanese@veterinaryspecialtycare.com).
