

Veterinary Specialty Center in Melbourne FL is hiring

<http://www.vsc-fl.com/about.html>

Reception

Veterinary Specialty Center is a busy surgery and rehabilitation practice in Melbourne, Florida. We are seeking a part-time, daytime (weekdays) receptionist. Applicants MUST have prior experience as a veterinary receptionist.

Essential traits should include having a friendly personality with excellent communication skills. You will be one of the first people our clients interact with at VSC! The ability to multitask and be detail oriented, remain professional during stressful times, and be an active team member are also vital.

An applicant that is familiar with Cornerstone software, Care Credit, filing pet insurance, and Microsoft applications is ideal.

Compensation is determined by experience level. VSC is a drug-free workplace.

Technician

Veterinary Specialty Center is seeking experienced veterinary professionals! We are looking for team-oriented, caring, highly motivated, and skilled people. Applicants must possess professionalism, good communication skills, and the ability/desire to learn.

Technical skills should include safe animal handling, venipuncture, IV catheter placement, exceptional patient care, and experience with anesthetic monitoring. Other key skills should include phone etiquette, exceptional housekeeping, and the ability to work independently as well as in a team environment.

Those who have experience with Cornerstone and who have been cross-trained in other work places are ideal candidates. It is necessary that candidates are flexible and willing to work all shifts including overnights.

Compensation is based on experience level and position being filled. VSC is a drug-free workplace.

Assistant

Veterinary Specialty Center in Melbourne, Florida is currently seeking a veterinary assistant to join our team of professionals! We are looking for team-oriented, highly motivated, and organized individuals. Applicants must possess professionalism, good communication skills, the ability to multitask, and the desire to learn.

Basic skills should include phone etiquette, exceptional housekeeping, and safe animal handling. Tasks will include cleaning, setting up and maintaining the high-standards of the operating rooms, instrument cleaning as well as packing and sterilizing, hospital maintenance and organization, assisting veterinary technicians and the doctor, checking clients in/out, answering phones, and completing checklists.

Apply ONLY if you have prior veterinary experience. Pay is determined based on experience level.

VSC is a drug-free workplace.
