

## Experienced Certified Veterinary Technician

We are looking for an experienced and dedicated CVT to join our team. This is a full-time position. We are a small, privately owned, and operated small animal practice, providing exceptional medical and surgical care in a warm and friendly atmosphere. As such, we are looking for someone who is a “people person” as well as an animal advocate. A pleasant personality and good communication skills are a must, as well as strong organizational skills and attention to detail. Applicants must have a minimum of 3 years’ experience in small animal medicine and be proficient in the following skills:

Blood draws and I.V. catheter placement

Surgical assisting and anesthesia monitoring

Dental cleaning and dental radiographs

Accurate and thorough recording of patient history

Client empathy, patience, and communication

We are a small, close-knit team, so arriving on time, fully prepared for work, is of the utmost importance. We strive to maintain a consistent home and work life balance, but there will be times when you will be required to stay late, therefore flexibility in this position is a must. We are a small animal medical facility only.... no grooming, no boarding and no weekends! We offer competitive salaries, paid holidays, paid vacations, discounts for personal pets, as well as paid continuing education. If you are compassionate about the health and well-being of pets, and have the ability to be patient and understanding of pet parents, please reach out to us at [officemanager@coastalvetcaredunedin.com](mailto:officemanager@coastalvetcaredunedin.com). Don't forget that resume! We look forward to hearing from you.

# Experienced Veterinary Technician

We are looking for an experienced and dedicated CVT to join our team. We are a small, privately owned and operated small animal practice, providing exceptional medical and surgical care in a warm and friendly atmosphere. As such, we are looking for someone who is a "people person" as well as an animal advocate. A pleasant personality and good communication skills are valuable assets to our team, as well as strong organizational skills and attention to detail. Applicants must have a minimum of 3 years' experience in small animal medicine and be proficient in the following skills:

Blood draws and catheter placement

Surgical assisting and anesthesia monitoring

Dental cleaning and x-rays

Accurate patient history and room assisting

Client empathy, patience and communication

We are a small, close-knit team, so arriving on time, fully prepared for work, is of the utmost importance. We strive to maintain a consistent home and work life balance, but there will be times when you will be required to stay late. Flexibility in this position is also a must. We are a medical facility only.... no grooming, no boarding and no weekends! We offer competitive salaries, paid holidays, paid vacations, deep discounts for personal pets, as well as paid continuing education. If you are compassionate about the health and well-being of pets, and have the ability to be patient and understanding of pet parents, please reach out to us at [officemanager@coastalvetcaredunedin.com](mailto:officemanager@coastalvetcaredunedin.com).
